SKILLS

- User research, Wireframing, Prototyping, Design Systems.
- Figma, Adobe XD, Webflow, Illustrator, HTML, CSS, JavaScript.
- Detail oriented, Problem-Solving, Self-management

EDUCATION

Google UX Design Certificate (6/7 courses completed)
July 2022 - November 2022 — Online

- Learned in depth about each design phase: emphasize, define, ideate, prototyping and testing, while applying the knowledge on two hands-on projects from start to finish.
- Topics also included UX research fundamentals, inclusive design, wireframing, responsive web design.
- Created low-fidelity and high-fidelity prototypes in Figma and Adobe XD.

The Complete Web Development Bootcamp
— Online Course Certificate
December 2018 - January 2019 — Online

- 40 hours online course on HTML, CSS, Bootstrap4, JavaScript ES6, Backend Development, APIs, etc.

University of Architecture and Urbanism "Ion Mincu", Faculty of Interior Architecture
— Licentiate and Master Degree in Interior Architecture
October 2013 - July 2018 — Bucharest (Romania)

- Worked on creative projects, both individually and as a member of a team.
- Practiced creative thinking and problem solving, gained knowledge about visual designs principles.
- Used Photoshop, CAD and 3D modeling programs (3dsMax, Rhinoceros)

EXPERIENCE

Admade — Junior Front-end Developer (React)
October 2019 - April 2021 — Chisinau (Moldova), remote

- Collaborate on the front-end for two projects: a web platform for managing orders and an affiliate link management platform, alongside the back-end developer and the project manager.
- Help improve visually and functionally the existing pages and create new ones from low-fidelity wireframes.
- Ensure that the elements are consistent across the pages. Apply design principles like layout, hierarchy, whitespace.
- Make sure the pages are responsive.
